PILOT PROJECT

Mission

Gaining trust and strong cooperation of the 3 parties: government - villagers -the charity

Goal

Improve agriculture for own use and commercial.

After 2 years, 80% houses has their own garden with livestocks, income 5.000.000/month

Time

01/11/2023 ~ 01/11/2025

Place

1000 m², in the village, which is desinated by the villagers. After the project finished, the land is returned to village or to be continued at the best for the the village.

PILOT PROJECT

Plan

Improve agriculture for own use and commercial

- Build a model place (a gardening with vegetables, fruits, and livestocks with house)
- Do and share experience with the villagers so that they can make their own garden and livestocks with the goovernment budget support.
- Optimize the water usage and waste management
- Process and sell products

Budget

Initial cost:

đ150,600,000 (= 6,024 \$)

Monthly running cost: đ2,700,000 (= 108\$)

2 year running cost: đ2,700,000 * 24 =

đ64,800,000 (= 2,592 \$)

Total cost:

đ215,400,000 (= 8,616 \$)

PILOT PROJECT

Project management

Smile Eye Charity is in charge of the effectiveness of the project.

- Call for contributors and sponsors
- Call for experts to coach in practical training programs
- Accompany with all of the parties
- Evaluate every 3 months and publish report to all related parties

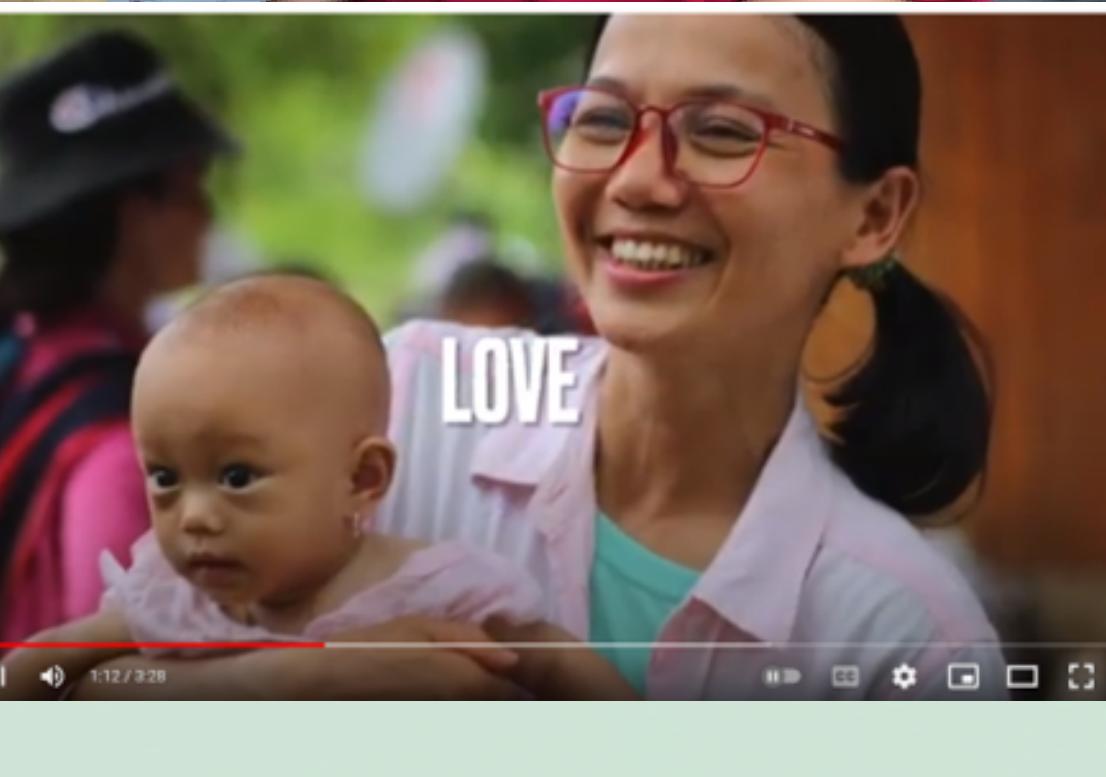

Smile Eye charity

- Non profit company,
- organizes practical training programs for villagers to improve living standards

Expected results (2 years)

- The model house and garden with plants and livestocks
- The village people understand what and how to plant, make their own garden, improve oncome to 5.000.000 VND/month
- The village environment become clean

We do together, we will success.
